The Book of Job Project presents dramatic readings by acclaimed actors of *The Book of Job* as a catalyst for powerful, guided conversations about the impact of the COVID-19 pandemic upon individuals, families, and communities. *The Book of Job* is an ancient Hebrew poem that timelessly explores how humans behave when faced with disaster, pestilence, and injustice. This event, focused on the Knox County, Ohio community, is part of Theater of War Productions' year-long virtual residency at Kenyon College. We are pleased to open this program up to the public to create the conditions for dialogue and connection during this time of isolation and division.
